

Nutri-Tech Black Gold™

An organic plant growth promoter which includes kelp, fish, humates, liquid vermicast, triacontanol and other natural "goodies".

A natural blend of fish protein, high-analysis kelp, polysaccharides, natural chelating agents, humic acid, fulvic acid, liquid vermicast, and a plant extract called triacontanol. Triacontanol has been found to provide a profound response in a variety of crops. University trials have produced crop yield increases ranging from 9 – 121% using this remarkable substance. Black Gold™ can be used for both foliar and fertigation applications and helps to build brix levels, increase stress resistance and frost protection, chelates

Benefits

- Excellent all-rounder for broad-spectrum nutrition and plant growth promotion.
- Triacontanol is a photosynthesis-enhancer. Photosynthesis is the most important of plant functions.
- Can be used frequently as it is not overloaded with N.P.K.
- Ideal as a rescue remedy following periods of stress – i.e. transplants, heat, frost, storm damage.
- A completely natural product.

PACKAGING

1 L, 5 L, 20 L, 200 L, 1000L
Product Code: NTBG

Nutri-Tech Black Gold™

Application Rates

Foliar:

Minimum Dilution 1:100

Small Crops, Turf & Vines

3 – 5 L per ha

Fruit Trees

5 – 7 L per ha

Broadacre

1 – 3 L per ha

Soil Application:

8 – 15 L per ha

Soak seedlings or planting material in a 1:150 dilution.

Miscellaneous

- Staining may occur on fruit or foliage; therefore it may be necessary to avoid spraying just prior to harvest.

Typical Analysis w/v

Nitrogen (as organic N)	3.12%
Phosphorus (as organic P)	0.49%
Potassium (as organic K).....	1.41%
Potassium (as fulvate & humate).....	0.10%
Total Potassium	1.51%
Sulphur.....	0.75%
Calcium.....	660 mg/L
Magnesium.....	740 mg/L
Iron.....	45 mg/L
Zinc.....	10 mg/L
Boron	10 mg/L

pH..... 3.4 – 4.5

Conductivity..... 32 – 46 mS/cm

Solubility..... 100%

Appearance: Black liquid with a slight fish odour
